Connecting Professionals, Practice and the Public

The Association of Environmental & Engineering Geologists Connecting Professionals, Practice and the Public

The Association of Environmental & Engineering Geologists (AEG) is pleased to announce the Winter, 2013 series of review courses for the ASBOG® geology licensing exam taught by REG REVIEW, Inc. AEG and REG REVIEW, Inc. have partnered to provide these courses since 1992. In the Winter of 2013, nine one-day review courses for the ASBOG® licensing exam will be offered regionally throughout the U.S. These nine courses will be spread out into regionally centralized locations in the following regions, the West Coast, including a course in both Northern and Southern California (the CA courses are now presented in 2 sections - 1 day for the ASBOG® and part of a day for the CA Supplemental), the East Coast, and the Central U.S. Region. Specific locations are listed below.

REG REVIEW's approach is to give you the focus and direction needed to appropriately study for the exams. The emphasis of the topics in the course is based on the emphasis on the exams. We cover the approach of the exam and highlight the types of information you would need for exam level questions. For specific information on our course content and study materials please visit our website at regreview.com. The study manuals appropriate to the exams you are taking are included in the course price.

REG REVIEW, Inc students typically have a pass rate that is 20% to 25% higher than the National average. Our success rate has ranged from 85% to 99% on both ASBOG® exams since we began teaching to that exam in 2000. The National pass rate during the same time was 55% to 63% for the FG and 61% to 80% for the PG. With the current state of the economy, can you afford to not pass the exam the first time you take it?

Who should take this class? Anyone who feels they need help getting the focus and direction needed to be able to streamline their studying process to adequately address the topics covered by the exam.

Course Dates and Locations...

Course dates and locations are summarized as follows:
(For more specific location information please go to our website at

<http://regreview.com/2013wintercourselocations.html>)

West Coast Courses - Winter, 2013

Santa Ana, CA- January 4, 2013, 8am to 4pm (ASBOG Portion)
January 5, 2013, 8am to 10:30am (California Supplemental Portion)

The preregistration deadlines for the Winter, 2013 courses is a postmark or online registration date as noted above for all courses.

Registrations are still accepted after this preregistration deadline but there is an additional fee of \$50.

To register online: <http://regreview.com/2013winteronlineregistration.html>

To register via fax or mail: <http://regreview.com/2013winterregistrationform.pdf>

Included in the course price are the set of Study Manuals pertinent to the exams you are taking and a packet of course notes (70+/- pages) that we have developed to present material that is new to the exams and to address important topics. The course notes are only available to our students. Discounts for the course are available to those who have purchased the books already. How much the discount is depends on what version of the books you have.

REG REVIEW, Inc. has been teaching these courses in California since 1985. In March 2000, we began to direct our teaching towards the ASBOG® geology licensing exam. The courses are taught by Lisa Dirth, CA PG 3951, CA CEG 1240, NC RG by ASBOG exam, Patti Sutch, CA PG 3949, CA CEG 1641, and CA CHG 25, and Elisabeth Ervin-Blankenheim, PA PG and past student of REG REVIEW.

Current information on study manuals, flash cards, and courses, including specific locations, may be found online on REG REVIEW, Inc's website at <http://regreview.com>. To contact REG REVIEW Inc.: e-mail - regreview@aol.com; mailing address - 1091 Mercury Dr, Lafayette, CO 80026; telephone - call Lisa Dirth in Colorado at [303-484-1203](tel:303-484-1203) or you can call Patti Sutch in California at [916-456-4870](tel:916-456-4870) (evenings).

Comments from our students from the Fall 2012 courses: "Your class was instrumental in my passing of the exam. The study guide provides the basis for all of the required knowledge as a Professional Geologist. In addition, the class was presented in a way that provided the maximum benefit for the student. I am thoroughly impressed with your work." S.M., Florida, "I got the second highest score on the FG! The one person who scored above me had the California Study guide. The PG I scored in the top half. There were about 14 people who took it in Indiana when I took it. Thank you! I could not have done it without your study guide and class!" R.K., Indiana, "I purchased your study guide and took the 1 day course you lead on the asbog. I wanted to let you know I passed on my first try with 92 on fundamentals and 90 on practice. Thanks so much for your work. I wouldn't have passed without your support." S.F.,

Florida

Please pass this information on to any geologist that you know that might like our help for preparing for the state licensure examinations. Thanks.
